Re: from AP

Subject:

Is EPA saying the unfiltered water coming from the wells meets federal drinking water standards and is safe to drink?
Mike

Mike,

EPA has sent the following message to residents of Dimock explaining the agency's official position.

Dear Dimock Residents,

This email is a follow-up to the visits to Dimock area homes by EPA on November 10, 2011 and the subsequent review of well sampling data for wells impacted by the Cabot Oil and Gas Company drilling activities. EPA has conducted a preliminary review and screening of the data provided by the Pennsylvania Department of Environmental Protection and residents. While we are continuing our review, to date, the data does not indicate that the well water presents an immediate health threat to users. EPA will continue to review available information related to the concerns of Dimock area residents. We are continuing to work with the Commonwealth of Pennsylvania going forward on this issue.

Please feel free to call me or David Polish, Community Involvement Coordinator, at (215) 814-3327, if you have further questions.

Sincerely,

Trish Taylor, Community Involvement Coordinator
Hazardous Site Cleanup Division (Mailcode 3HS52)
U.S. Environmental Protection Agency, Region 3
1650 Arch Street, Philadelphia, PA., 19103
phone: (215) 814 - 5539
fax: (215) 814 - 3015

Regarding correspondence with PADEP, EPA and PADEP are in contact on this matter on a regular basis.

Activation under CERCLA in Dimock is not under consideration at this time.

David Sternberg
Press Officer
U.S. EPA
215-814-5548

David,
Just left you a voice message. Please give me a call at your earliest convenience. Thanks.
Mike
